Objective

As a junior postgraduate in computer systems engineering, I am specializing in the field of Front-end. I have done several training projects and tasks throughout my studies in this field. I now see that this field is my future, in which I will give my best creativity. I want to complete this path and increase my knowledge and experience.

Experience

JAN - MAR 2023

ITG Company
Frontend developer

For 300 hours, I did several projects and tasks with the company, learning a lot of experience in the process like HTML, CSS, JavaScript, SASS, Unit Testing, and React.
